

## **Parker Marine, Inc.**

*The story of our business starts with a passion: A passion not only to work on boats, but also a passion to do all work to the highest standards of quality, utilizing the finest workmanship, materials and parts available. As we have grown over the past thirty years, these passions have grown along with us.*

*As we begin our fourth decade of serving boaters, the passions are now tradition. A tradition of doing the right things the right way, the first time, the way they are supposed to be done.*

*We believe that because our business is family-owned and family-operated, we can offer a more “personal” relationship with our customers which, in turn, allows us to better understand your needs. We value the relationships and trust we have earned with our customers, and we strive to earn that trust every time they come back, every year, every job.*

*So, whether you are looking to upgrade your electronics, or have a bow thruster installed, or maybe just looking for a great place to winter store that can “do it all”* **WE CAN HELP YOU!**

**Parker Marine, Inc.**
